

Valentine's Bump Game

Made by Liesl at The Homeschool Den

Doubling (Addition)

You need a die with the numbers 1 thru 6

Each player needs their own set of tokens.

To Play:

1. The first player rolls. She doubles the number she rolled and places a token on the heart.
2. If another player has a token on the heart, the player can bump the other player's token off and replace it with her own token.
3. When a player has two tokens on a heart, she has won that heart.
4. The player who has the most hearts at the end of the game wins.

$$\text{Heart with } 2 + \text{Heart with } 2 = \text{Heart with } 4$$

To play the second board game, get a wooden cube and write the numbers 5, 6, 7, 8, 9, 10. Use that cube to play the doubling facts game.
