Hi everyone,

It's Liesl here (from homeschoolden.com) I wanted to share with you a little bit about our family's experiences with Sra. Morato's Elementary Spanish Course.

I got a chance to see what Sra. Morato has been doing with her online classes. She has been creating teaching videos, flashcards (with games), worksheets and more. It's a pretty great program. How do I know? Well, this summer, I asked the kids if they wanted to learn Spanish. My girls said, YES. (My girls are 9 and 12.)

They have been diving into Sra. Morato's elementary program (which is still in Beta and is rolling out). I can say unequivocally that Sra. Morato is a GREAT teacher! She is a native Spanish speaker and has 20 years of teaching experience in the local public schools. She teaches all ages from primary & middle grades through high school and professional adults!!

What I love about her program? Well, I don't speak Spanish. If my girls are going to learn another language (besides German), I can't help them. But with Sra. Morato's program, I can basically just say to the girls, "Did you do your Spanish?" Not only do they do the videos & flashcards, but they also meet regularly with Sra. Morato for LIVE face-to-face sessions. My girls enjoy that. And, I know that live tutoring can be really expensive, so having them speaking with her to practice their Spanish (as part of the course) is amazing!
