

Made by Liesl: [The Homeschool Den](#)

- *Make your own dice (5 total) with the numbers 1-5 and a sunny side. ☀️
- *Cut up the sheet below into 3x3 squares.
- *Each player gets their own sheet.
- *Roll all 5 dice and make as many number combinations as possible.
- *The sunny side ☀️ is a wild number; choose any number you want.
- *For example if you roll a 1,1, 3, 4, sunny-side up then you could make the following numbers 11, 35 (with the sunny-side) and 4.
- *Cross off the numbers on your sheet. The first player to cross off all the numbers wins the game.

23	52	1	21	34	2	41	53	1
44	31	5	45	54	3	25	33	4
35	14	2	33	11	4	33	12	5
24	32	2	34	14	1	35	55	4
33	52	4	42	31	5	43	32	3
41	15	3	25	51	3	21	13	1
22	54	5	31	53	4	25	52	4
32	12	5	21	11	3	42	34	1
42	34	1	43	35	2	33	12	1
23	33	5	22	55	5	45	35	4
