

Bob Book Worksheet Pack

We are using the Bob Books to help our preschooler learn to read. While my other two kids learned to read early (age 3) using the Bob Book series (and others), my third child has her own pace and style of learning. She is excited about writing words, loves to color, and has amazing pencil skills. I made these worksheets for her. These would *never* have worked with my son so don't be surprised if your child isn't interested!

These sheets go with the very first set of [Bob Book, Set 1 Beginning Readers](#), but also include some basic number practice.

All drawings in this pack were made by me - based on the Bob Book theme. (Obviously I'm no artist!)

Made by Liesl at [The Homeschool Den](#).
