

The Ultimate Game Board

Made by Liesl at the [Homeschool Den](#)

Use this game board to practice any set of math facts.

- Instructions: Start on ANY **start** space. Win by landing on any **win** space.
- On your turn, take a card, answer the problem and move that number of spaces. Follow the instructions on the space you landed... moving again until you cannot move any more (spaces such as stay put, lost a turn, blank spaces, etc.)
- Double Move -- Answer the problem on your card and double that.
- Triple Move -- Answer the problem on your card and triple that.
