Math Problems

Minecraft Theme

Made by Liesl at homeschoolden.com

These days you can usually point your camera at the QR code. Then hit the QR code on the screen and the text answer will pop up. Alternatively, you can get a QR Code Reader app for your phone or tablet. The one we downloaded was free.

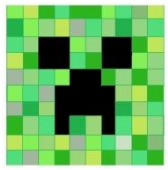

Print out the desired page/s. Cut out the problems.

Have the kids solve the problem and check their answer by scanning the bar code with a phone/tablet.

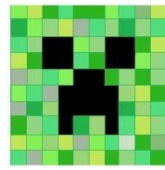

Kids, read this secret message:

homeschoolden.com

The image displays a collection of educational resources for a unit on Earth's atmosphere. The central element is a large red and white graphic that reads "Layers of the Atmosphere Packet" and "50+ Pages Notebook Pages, Hands-on Activities and More!". Surrounding this are numerous smaller images of worksheets and informational pages. These include diagrams of the atmosphere's layers with their respective altitudes (e.g., Exosphere starting at 600m, Thermosphere at 190m, Mesosphere at 100m, Stratosphere at 30m, and Troposphere at 10m), cross-sections of the atmosphere showing various phenomena like auroras and spacecraft, and pages detailing the greenhouse effect, air mass, and the electromagnetic spectrum. Some pages feature illustrations of Earth from space, while others show diagrams of atmospheric processes like convection and the water cycle. The materials are presented in a collage style, overlapping each other to show the variety of content included in the packet.
