- Print the tree and birds (pages 2-4) on card stock.
- Glue (or tape) the tree to the outside of a file folder. Attach a Ziploc bag into the inside of the file folder. Cut out the birds.
- Place the Answer Key Tree inside the file folder. Students can check their own work before putting the materials away in the Ziploc bag.

The image is a collage of various educational worksheets for multiplication and division, featuring animal illustrations and the text "homeschoolnden.com".
At the top left, there is a large circular worksheet titled "4s Counting Start" with numbers 4, 8, 12, 16, 20, 24, 28, 32, 36, 40 arranged in a spiral pattern around a central star containing the number 16. Small animal icons are interspersed among the numbers.
Below this, there are several small cards for multiplication facts: "4x1=", "4x2=", "4x3=", "4x4=", "4x5=", "4x6=", "4x7=", "4x8=", "4x9=", and "4x10=". Each card includes a small animal illustration (polar bear, wolf, or bear) and a visual aid like "Move ahead 3 Spaces" or "Move Back 4 Spaces".
In the center, there is a large red text overlay that reads "Multiplication by 4s Animal Packet 25 pages".
To the right of the central text, there are several worksheets for multiplication and division practice. One titled "Multiplication by 4s" shows a grid of numbers and a list of multiplication problems (4x1 through 4x11). Another titled "Division Practice" shows a list of division problems (4) 28, (4) 36, etc. There are also worksheets for "Multiplication by 4s" and "Division Practice" with animal illustrations.
At the bottom left, the website "homeschoolnden.com" is written in large blue letters.
At the bottom right, there is a small illustration of a green and yellow striped lizard.

Mixed Math Practice Packet: By the spring-time, ED had all of her facts down and started working on simple **double-digit multiplication** like 23×7 . She worked on some mixed multiplication practice and she slowly began working on multiplication problems with carrying. This was the packet I made for her for this next skill (which had about 9 pages, with just a few double-digit multiplication problems on each page):

Mixed Math Practice & the New Skill: Double-Digit Multiplication

homeschoolden.com

Introducing Double-Digit Multiplication: These pages had some multiplication, division, addition and subtraction. Each day she also worked on a few larger multiplication problems (for example, 729×3). (These pages are included in the bundle below.)

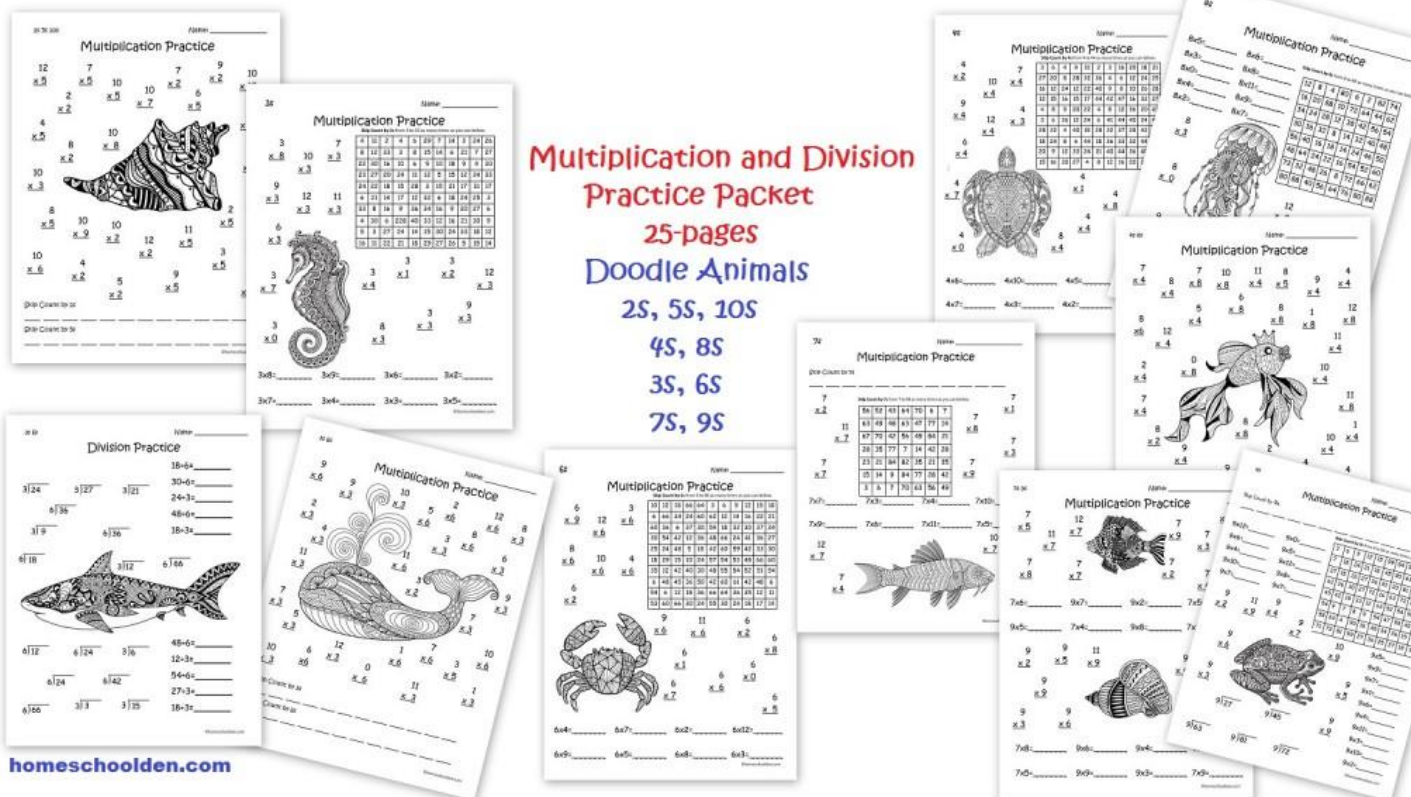

Multiplication Review Packet (Ancient Egypt Theme): I made ED a review packet for the fall. The theme was Ancient Egypt (she chose it!). This packet (also included in the bundle below) reviews all of her multiplication tables 2s thru 9s. This packet is 25+ pages (\$3.00) or is included in the bundle below.
