Name: _____

Halloween Addition Races

You will need to make your own die for these games. We purchased wooden cubes from a craft store for this. Write the numbers 4 through 9

Players take a guess as to which Halloween column will win.

Place 6 tokens across the bottom of the game board.

Players take turns rolling the die and solving the problem. Move the token one space closer to the picture at the end.

- Doubles -- add the number rolled to itself (4+4, 5+5, etc)
- +2 Game board. Add two to the number rolled (4+2, 5+2, etc.)
- +3 Game board. Add three to the number rolled (4+3, 5+3, etc.)
-

Doubles
