

Print the cards out 2 pages per sheet! I suggest you print out pages 1 and 2 together on one sheet!

Place Value Activity:

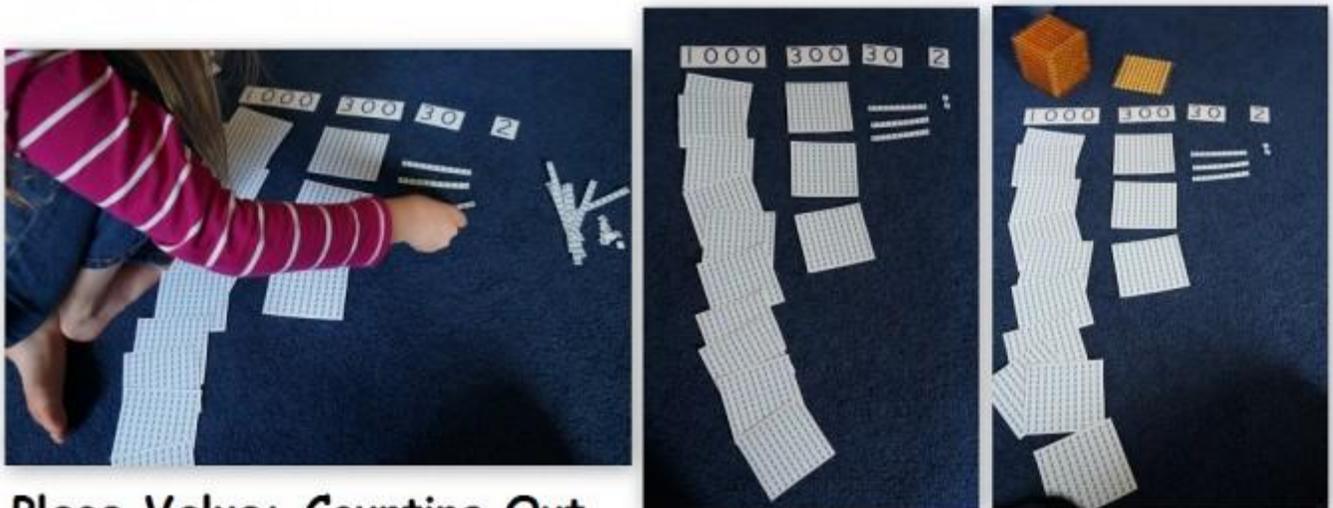

You can use these cards to help your child build numbers into the thousands. Have your child build the number 1,332... (for example). Make sure they can stack the numbers properly:

Place Value Math: Building the Number

The Homeschool Den

Then, have the child count out 1000 kitties (10-100s cards), 3 100s cards, 3 rows of 10 and 2 individual kitties:

Place Value: Counting Out Kitties

The Homeschool Den - You can download those 100s kitty cards at the bottom of the post.

You can fasten 10 hundreds cards together to make little packets of 1,000. I also try to have the Montessori 1000 bead cube on hand to show physically how many beads there are.
