

# Lizard Races

Made by Liesl at [homeschoolden.com](http://homeschoolden.com)

Images purchased from [canstockphoto.com](http://canstockphoto.com)

Print out the following pages on card stock.

You will need one token for each row (a total of 6 tokens).

You will need a wooden craft block.

- If you are playing the multiplication game, you will need to write the following problems on the sides of the wooden block:  $8 \times 4$ ,  $8 \times 5$ ,  $8 \times 6$ ,  $8 \times 7$ ,  $8 \times 8$ ,  $8 \times 9$
- If you are playing the division game, you will need to write the following problems on the sides of the wooden block:  $32 \div 8$ ,  $40 \div 8$ ,  $48 \div 8$ ,  $56 \div 8$ ,  $64 \div 8$ ,  $72 \div 8$

## To Play:

Before the game begins, each player takes a guess as to which lizard will win the race.

Players take turns rolling the wooden block and solving the answer. The player then moves the token forward one space.

Then the next player rolls the wooden block, solves the answer and moves the token forward.

The game ends when the token reaches one of the lizards. Did anyone win the game?!!

*Lizard Races: 8 x 4 through 8 x 9*

**Lizard Races:  $32 \div 8$  through  $72 \div 8$**

Feel free to make as many copies as you need for your children or the students in your classroom. This file may not be uploaded to any file sharing website.

Have fun! ~Liesl

The image displays a collection of educational worksheets. On the left, there are worksheets for multiplication by 4s, including a grid of numbers, a list of multiplication facts (e.g.,  $4 \times 1 = 4$ ,  $4 \times 2 = 8$ ,  $4 \times 3 = 12$ ), and a page with 25 pages of practice problems. On the right, there are worksheets for multiplication by 9s, including a grid of numbers, a list of multiplication facts (e.g.,  $9 \times 0 = 0$ ,  $9 \times 1 = 9$ ,  $9 \times 2 = 18$ ), and a page with 25 pages of practice problems. The worksheets are decorated with various animal illustrations, including a leopard, a tiger, a cow, a lion, a giraffe, a snake, and a scorpion. The text 'Multiplication by 4s Animal Packet' and 'Multiplication by 9s Animal Theme' is prominently displayed in red and black. The website 'homeschoolden.com' is mentioned at the bottom of the pages.
