Pirate Pack and Place Value Activity Pack Don't this fun math pack with games, activities and math worksheets.

[Creating a Homeschool Curriculum – Kindergarten, Grade 1](#) – This FREE 50-page Homeschool Resource has been created to help answer some basic questions: What subjects should I teach my Kindergartner/1st Grader? Where do I start? How do I know what to teach my kids?

This is the first in a series of Resource Packets that help share what we've done (roughly) by grade level. It's a FREE 50-page pdf with links to dozens of language arts, math, science, and social studies (and geography). It has activities that will work with ages 4-6 (roughly) Hope you find something useful! ~Liesl

[Creating a Homeschool Curriculum Grades 2-3](#) Free 30-page Resource Guide

What subjects, units and topics to cover in Grades 2 and 3? This guide is a starting point for choosing the material you might want to cover in your homeschool. Hope you find it helpful!

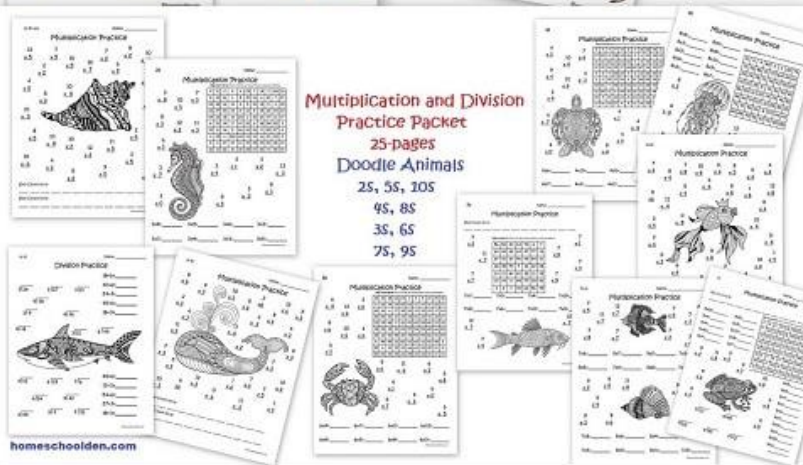

**Multiplication – Division Math BUNDLE:** As my daughter moved into learning her multiplication facts I looked around for the kind of multiplication practice that would help her. The math book she was using went through the math facts a bit too quickly for her. She needed quite a bit of repetition and wanted bright, colorful worksheets. I wound up making my own sets of practice pages and games. She loved that! Be sure to check out our Multiplication Bundle here: [Learning the Multiplication Tables 2s thru 10s](#). Scroll down to see the links to these individual packets below.

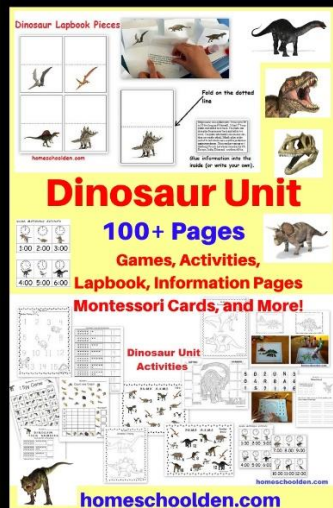

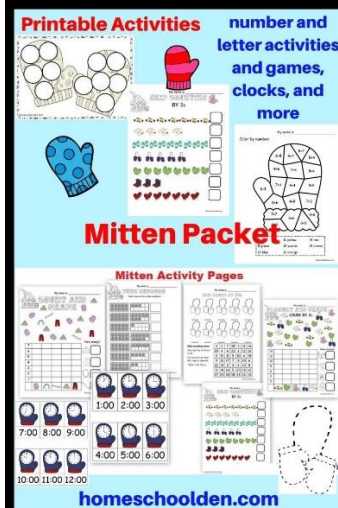

Be sure to check out some of our other packets. Visit our store for more details!
