[Learning the Multiplication Facts](#): As my daughter moved into learning her multiplication facts I looked around for the kind of multiplication practice that would help her. The math book she was using went through the math facts a bit too quickly for her. She needed quite a bit of repetition and wanted bright, colorful worksheets. I wound up making my own sets of practice pages and games. She loved that! Be sure to check out our Multiplication Bundle here: [Learning the Multiplication Tables 2s thru 9s](#).

**Learning the
Multiplication Tables
2s thru 9s
150+ pages
Skip Counting, Practice
Worksheets, Games and More!**

The image displays a collection of educational materials for learning multiplication facts from 2 to 9. The materials include:

- Colorful multiplication tables for each number (2 through 9).
- Worksheets with multiplication problems, some using visual aids like arrays or number lines.
- Division practice sheets with long division problems.
- Skip counting practice sheets.
- Games, such as a 'Multiplication by 3s File Folder Game'.
- Worksheets with various math problems, including word problems and mental math exercises.

The text '150+ pages' is prominently displayed in blue, and 'Skip Counting, Practice Worksheets, Games and More!' is written in blue at the bottom. The overall theme is bright and engaging, with many illustrations of children and animals.
