10 _____ 100

You might be interested in some of our other packets:

Learning the Multiplication Facts: As my daughter moved into learning her multiplication facts I looked around for the kind of multiplication practice that would help her. The math book she was using went through the math facts a bit too quickly for her. She needed quite a bit of repetition and wanted bright, colorful worksheets. I wound up making my own sets of practice pages and games. She loved that! Be sure to check out our Multiplication Bundle here: [Learning the Multiplication Tables 2s thru 9s](#). You'll see links to these individual packets at the bottom of that post.

What order did my daughter learn her math facts? 2s, 5s, 10s, 3s, 6s and 7s (because those skip counting songs were easy for her!), 4s, 9s, 8s.

Here are some of the 4s pages:

Multiplication by 4s

Animal Packet

25 pages

And, here are some of the 8s.

Multiplication by 8s

Lizard Pack!

37-page Worksheet Packet

Made by Liesl at homeschoolden.com

[Creating a Homeschool Curriculum – Kindergarten, Grade 1](#) – This FREE 50-page Homeschool Resource has been created to help answer some basic questions: What subjects should I teach my Kindergartner/1st Grader? Where do I start? How do I know what to teach my kids?

This is the first in a series of Resource Packets that help share what we've done (roughly) by grade level. It's a FREE 50-page pdf with links to dozens of language arts, math, science, and social studies (and geography). It has activities that will work with ages 4-6 (roughly) Hope you find something useful! ~Liesl

[Creating a Homeschool Curriculum Grades 2-3](#) Free 30-page Resource Guide

What subjects, units and topics to cover in Grades 2 and 3? This guide is a starting point for choosing the material you might want to cover in your homeschool. Hope you find it helpful!

You might also want to check out our [Science Resource Page](#) which has links to dozens of science posts.

Engineering Activities	<ul style="list-style-type: none">• Engineering Activities for Kids• 7 Fun STEM Activities for Kids• Free Engineering Curriculum for Kids grades 3 to 8 -- This was actually from 2014, but it still gets so many hits, I'll share here anyway. :)	
Earth Science Activities	<ul style="list-style-type: none">• 50 Page Earth Science Packet - Pangaea, Plate Tectonics, Plate Movement Activities, Volcanoes, Earthquakes, hands-on activity ideas and more• Earth's 4 Main Systems (Ecospheres) - Biosphere, Atmosphere, Geosphere, Hydrosphere These are free notebook pages about Earth's major systems. This makes a good introduction to any major study of Earth Science, the atmosphere, biosphere (habitats, biomes etc.) or oceans.• Earth Science: Plate Movement Hands-On Activities• Earth's Geologic Timeline - Earth's history separated by eons in a way the kids could really understand• Earth Science - Layers of the Earth Activity• Earth Science: Atmosphere and the Greenhouse Effect• Free Earth Science Packet: Layers of the Atmosphere• Learning about the Solar System - Including the hands-on kit the kids loved assembling and painting.• Earth Science: Timeline of Earth Activity - A Montessori activity that is meant to impress kids with the enormity of time on Earth.• Time Paper Volcano - Create a 3-D volcano and learn about the layers of the volcano. I did this craft.• Hands-On Volcano Activities: Gelatin Volcano and Lava Flow - We learned SO much from the gelatin volcano activity. I highly recommend doing this for understanding how lava flows as it does.• How to Make a Shake Table: Earth Science Earthquake Activity - This post includes a quick video of how we made our shake table.• Earth Science: Layers of the Atmosphere Worksheets• Earth Science: Plate Movement and the Mid-Atlantic Ridge	
Cell Unit	<ul style="list-style-type: none">• Cell Unit: Cell Organelles and their Function, Animal vs. Plant Cells, Eukaryotic vs. Prokaryotic Cells, and more - the kids learned about the major organelles of the cell and we did some really fun projects• Photosynthesis Worksheets: We spent time learning about Plant Cells and talked about photosynthesis. These notebook pages are free.	

Science Units and Hands-On Activities

We also have [a history resource page](#) as well as a [language arts resource page](#) (remember we have tons of free grammar pages!)

History Topics We Covered in 2015-2016

American Revolution

This year we started off with a unit on the **Causes and Events Leading to the American Revolution**. The girls were watching the series *Liberty's Kids* ([affiliate link](#)) and we had also done trips to Washington's Crossing, Valley Forge and Yorktown. It made sense to do a unit on the **causes of the American Revolution**. We covered the French and Indian War, the various acts that were passed by Parliament (Stamp Act, Tea Act, Intolerable Acts, etc.) as well as the response to that in the U.S. (the Boston Massacre, Boston Tea Party, etc.).

Middle Ages Unit

Last spring, we studied the early Middle Ages. We stopped because of summer vacation. We did our unit on the American Revolution before delving back into the Middle Ages again. We picked up where we had left off and studied the Crusades, the Hundred Year's War, and the Black Plague.
