Number Family Games

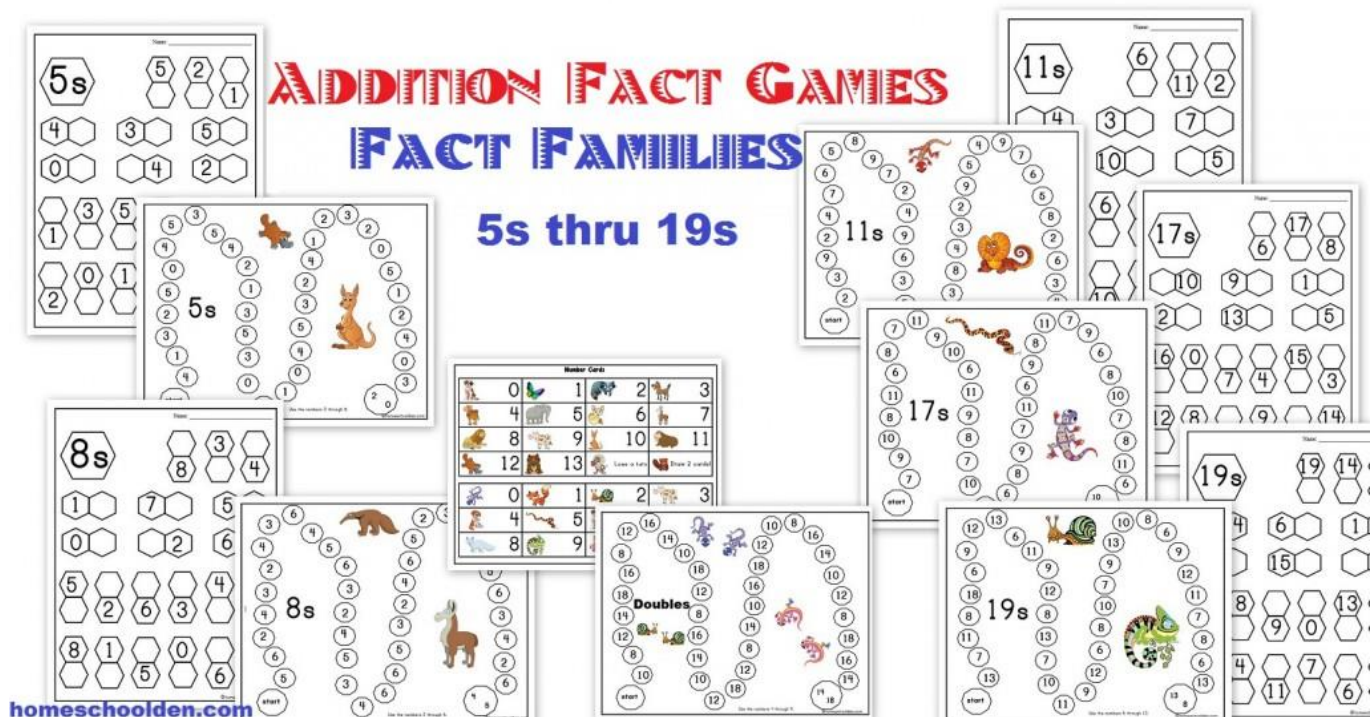

Why learn the number families? Knowing their fact families helps a lot as kids start to work on their subtraction facts. They know that $6+7=13$, so $13-7$ becomes easy!

We played a lot of board games as the kids got to know their number family facts.

Pirate Pack and Place Value Activity Pack

This packet was made by Lind at homeschoolers.com

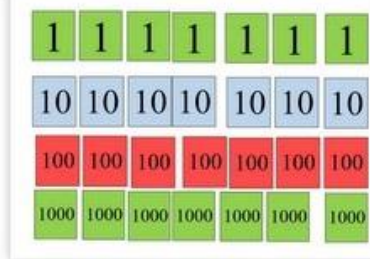

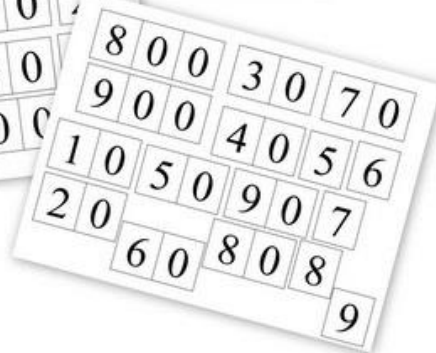

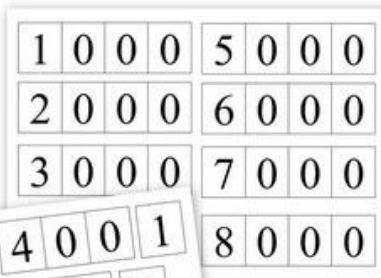

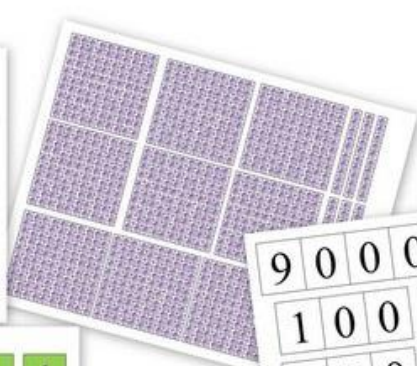

On the following two pages are brief notes:

Print page 7 out on card stock, laminate. Cut out the 8 hundredths squares and 8 tenths. Cut one tape card into single bands.

Thermocladic Beads: Print at least two copies of page 3 out on card stock. Laminates. Cut the square bead cards and leave the tabs. Stack the cards in two 12 row columns. Insert a bead through the tab nearest to corner A. (1000 beads)

Simply use this link: <http://www.ck12.org> to get a free account and use the link to create a login name and password for the students. Or print out 10 copies of page 1 to make 4 thousand packs. (We never built numbers higher than 4,000 but you kids will use the sheet).

Have the students build numbers using the bead cards. There are number cards on pages 5, 6 and 7.

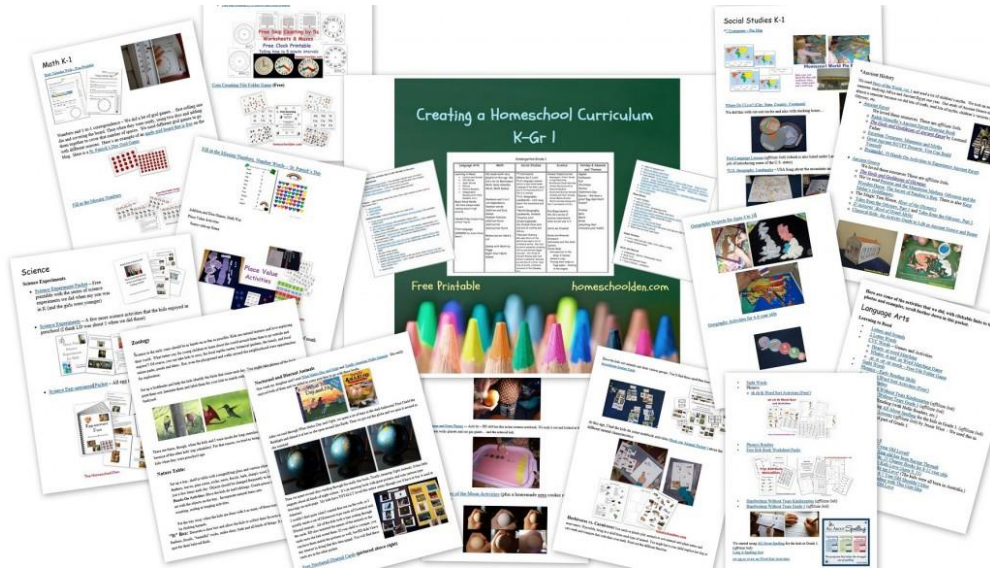

Place Value Activities

[Creating a Homeschool Curriculum – Kindergarten, Grade 1](#) – This FREE 50-page Homeschool Resource has been created to help answer some basic questions: What subjects should I teach my Kindergartner/1st Grader? Where do I start? How do I know what to teach my kids?

This is the first in a series of Resource Packets that help share what we've done (roughly) by grade level. It's a FREE 50-page pdf with links to dozens of language arts, math, science, and social studies (and geography). It has activities that will work with ages 4-6 (roughly) Hope you find something useful! ~Liesl

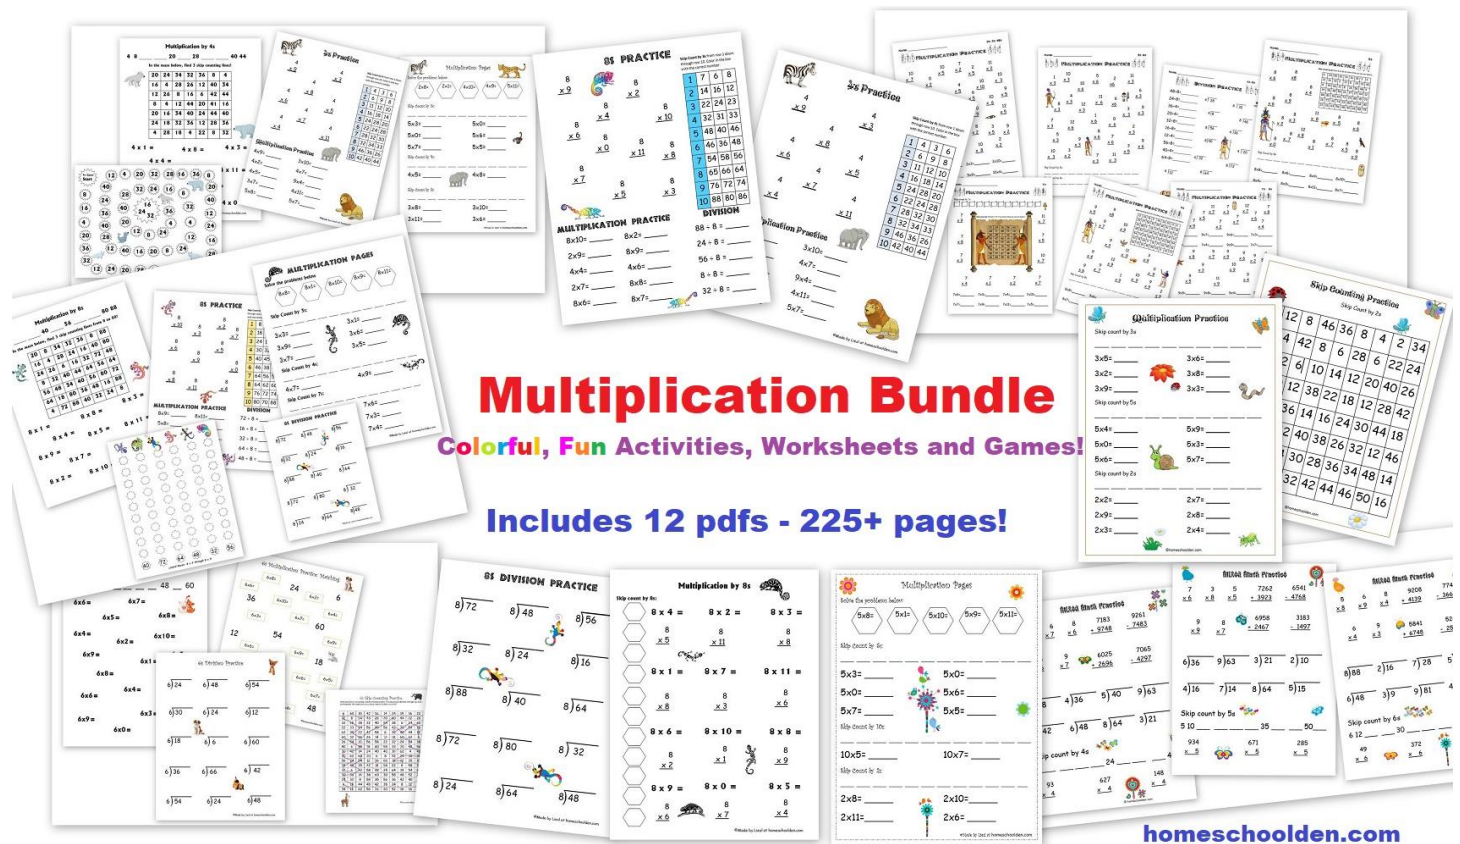

[Creating a Homeschool Curriculum Grades 2-3](#) Free 30-page Resource Guide

What subjects, units and topics to cover in Grades 2 and 3? This guide is a starting point for choosing the material you might want to cover in your homeschool. Hope you find it helpful!

Learning the Multiplication Facts: As my daughter moved into learning her multiplication facts I looked around for the kind of multiplication practice that would help her. The math book she was using went through the math facts a bit too quickly for her. She needed quite a bit of repetition and wanted bright, colorful worksheets. I wound up making my own sets of practice pages and games. She loved that! Be sure to check out our Multiplication Bundle here: [Learning the Multiplication Tables 2s thru 9s.](#)

Multiplication Bundle

Colorful, Fun Activities, Worksheets and Games!

Includes 12 pdfs - 225+ pages!

Buy our [multiplication bundle](#), 12 files, for \$7.00 (Some sold individually as well. Just follow the links above.)
