Feudalism Activities

Feudalism Simulation Activity

Draw cards and see what your fate is.

Will you survive the Middle Ages?!!!

The "king" sat at the top of the hill in his castle. If you drew certain cards you had to run up the hill to serve the king. To the right, peasants are "working" hard in the fields.

Learning the Multiplication Facts: As my daughter moved into learning her multiplication facts I looked around for the kind of multiplication practice that would help her. The math book she was using went through the math facts a bit too quickly for her. She needed quite a bit of repetition and wanted bright, colorful worksheets. I wound up making my own sets of practice pages and games. She loved that! Be sure to check out our Multiplication Bundle here at this post: [Learning the Multiplication Tables 2s thru 9s](#) (or see the purchase link to buy our bundle of 12 pdfs in [Our Store](#)) Here are some sample pictures:

There are actually more than 175 pages... I keep adding to the bundle! 😊

What order did my daughter learn her math facts? 2s, 5s, 10s, 3s, 6s and 7s (because those skip counting songs were easy for her!), 4s, 9s, 8s.

This image is a collage of various educational worksheets for children, specifically focusing on multiplication and division by 8. The worksheets are titled "Multiplication by 8s", "Lizard Pack!", "37-page Worksheet Packet", and "8s PRACTICE". They include a variety of math problems, such as multiplication tables, skip counting exercises, and division problems. The worksheets are decorated with colorful illustrations of lizards and other animals. The text "Made by Liesl at homeschoolden.com" is visible at the bottom of the collage.

Here is a glimpse of the Doodle Animal Multiplication Review Packet that is included in the [Multiplication bundle](#):
