If you liked these pages, you might also be interested in our Multiplication Bundle!

I added made a Skip Counting, Multiplication and Division Packet (in this same style) for the 3s, 4s, 6s, 7s, 8s, and 9s. I added these to our (growing) Multiplication Bundle:

Skip Counting, Multiplication and Division Practice Pages

Learning the Multiplication Facts: As my daughter moved into learning her multiplication facts I looked around for the kind of multiplication practice that would help her. The math book she was using went through the math facts a bit too quickly for her. She needed quite a bit of repetition and wanted bright, colorful worksheets. I wound up making my own sets of practice pages and games. She loved that! Be sure to check out our Multiplication Bundle here at this post: [Learning the Multiplication Tables 2s thru 9s](#) (or see the purchase link to buy our bundle of 12 pdfs in [Our Store](#)) Here are some sample pictures:

There are actually more than 250 pages... I keep adding to the bundle! ☺

What order did my daughter learn her math facts? 2s, 5s, 10s, 3s, 6s and 7s (because those skip counting songs were easy for her!), 4s, 9s, 8s.

Multiplication by 3s File Folder Game

homeschoolden.com

I made her packets for each of the multiplication tables... which included games, skip counting practice, and math problems.

Then, as she got better, some of the packets I created had practice sheets for all of the multiplication tables.

Here is a glimpse of the Doodle Animal Multiplication Review Packet that is included in the [Multiplication bundle](#):

[Learning the Multiplication Tables 2s thru 9s](#) or you can purchase our Multiplication Bundle in [Our Store](#).

Animal Packet (Vertebrates-Invertebrates, Animal Characteristics and more)

[illegible]

Animal Body Coverings

Name: _____

Animals have different body coverings depending on which class they belong to.

- Mammals have fur or hair.
- Birds have feathers.
- Reptiles have dry scales.
- Amphibians have moist, smooth skin.
- Fish have wet scales.

Animal coverings come in a variety of colors and patterns. Their covering can help protect them in a number of different ways:

Helping them blend into their environment.

Making them look like something else. What do the two insects below look like?

Warning others to stay away!
