The image displays five overlapping worksheets for mixed math practice, each featuring a title 'MIXED MATH PRACTICE' and various exercises. The worksheets are decorated with colorful illustrations of flowers, butterflies, and other small objects.

- Worksheet 1 (Top Left):** Contains multiplication problems (e.g., 3×8 , $8308 + 3886$), division problems (e.g., $5 \overline{)35}$, $7 \overline{)56}$), and skip counting by 3s (e.g., 3, __, 15, __, 27).
- Worksheet 2 (Top Middle):** Contains multiplication problems (e.g., 5×4 , 6×7), division problems (e.g., $2 \overline{)18}$, $4 \overline{)36}$), and skip counting by 4s (e.g., 4, __, 24, __, 40).
- Worksheet 3 (Top Right):** Contains multiplication problems (e.g., 7×3 , 5×5), division problems (e.g., $6 \overline{)36}$, $9 \overline{)63}$), and skip counting by 5s (e.g., 5, 10, __, 35).
- Worksheet 4 (Bottom Left):** Contains multiplication problems (e.g., 8×6 , 9×4), division problems (e.g., $8 \overline{)88}$, $2 \overline{)16}$), and skip counting by 6s (e.g., 6, 12, __, 30).
- Worksheet 5 (Bottom Right):** Contains multiplication problems (e.g., 6×8 , 7×4), division problems (e.g., $3 \overline{)12}$, $9 \overline{)27}$), and skip counting by 7s (e.g., 7, __, 35, __, 63).

At the bottom of the image, the text 'Mixed Math Practice:' is written in large, bold, red letters.

+Introducing Double-Digit Multiplication

Learning the Multiplication Facts: As my daughter moved into learning her multiplication facts I looked around for the kind of multiplication practice that would help her. The math book she was using went through the math facts a bit too quickly for her. She needed quite a bit of repetition and wanted bright, colorful worksheets. I wound up making my own sets of practice pages and games. She loved that! Be sure to check out our Multiplication Bundle here at this post: [Learning the Multiplication Tables 2s thru 9s](#) (or see the purchase link to buy our bundle of 12 pdfs in [Our Store](#)) Here are some sample pictures:

There are actually more than 250 pages... I keep adding to the bundle! ☺

What order did my daughter learn her math facts? 2s, 5s, 10s, 3s, 6s and 7s (because those skip counting songs were easy for her!), 4s, 9s, 8s.

Multiplication by 3s File Folder Game

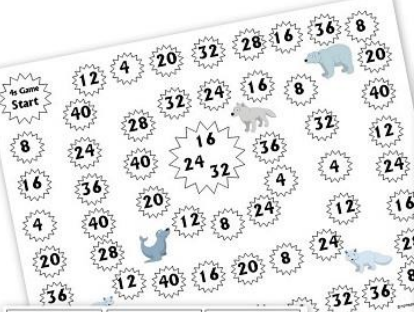

homeschoolden.com

I made her packets for each of the multiplication tables... which included games, skip counting practice, and math problems.

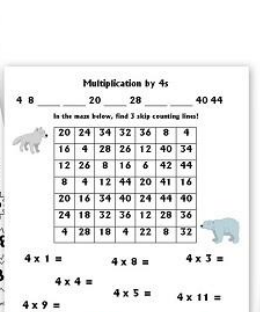

Then, as she got better, some of the packets I created had practice sheets for all of the multiplication tables.
