You might enjoy our HUGE Multiplication/Division Bundle!

When my youngest was 8, she took on the big math task of learning all of her multiplication tables. As my daughter moved into learning her multiplication facts I looked around for the kind of multiplication practice that would help her. The math book she was using went through the math facts a bit too quickly for her. She needed quite a bit of repetition and wanted bright, colorful worksheets. I wound up making my own sets of practice pages and games. She loved that!

I made her multiplication packets for each multiplication fact family as she worked through them.

What order did she learn her math facts? 2s, 5s, 10s, 3s, 6s and 7s (because those skip counting songs were easy for her!), 4s, 9s, 8s. That doesn't mean your child has to do them in that order, I'm just sharing what worked for her!! 😊

Do you believe education can be exciting, inspiring, and full of joy? We do too! I love the quote by William Butler Yeats, "Education is not the filling of a pail, but the lighting of a fire." It's about getting the kids involved, engaged, and fired up about learning (while juggling the rest of life too!)

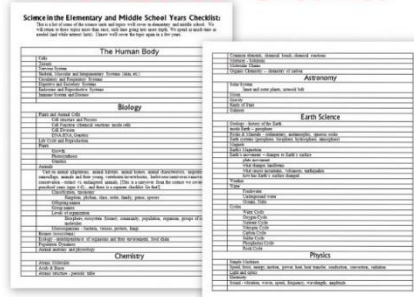

Helpful Homeschool Resources: You will find hundreds of resources over at our website! We have a free homeschool planning guide, a free daily/weekly homeschool planner, seasonal printables, notebook pages (from Genghis Khan to Natural Disasters and more!), packets and units, dozens of free grammar sheets (comma rules practice sheets, etc.), homeschool encouragement, teaching strategies, hands-on activity ideas and much more!

FREE Science Unit Checklist

Science in the Elementary and Middle School Years
Homeschool Checklist

science-units](http://homeschoolden.com/science-units)

FREE Homeschool Planners

FREE Homeschool Planning Guide

Hands-On Homeschooling: I love creating curriculum and love making things engaging and fun for the kids. Be sure to visit this hands-on activities page: homeschoolden.com/hands-on-homeschool-activities/ I shared TONS of pictures! (You'll find a free printable list of homeschool teaching strategies and activity ideas there.)

Free Resource Guides: These are FREE 35+ page resource guides that I put together to help answer some basic questions: What subjects should I teach my 2nd or 5th or 8th grader? Where do I start? How do I know what to teach my kids? These are some of the units and topics our family covered in these years. It might provide a starting point for those of you just starting your homeschool journey and may give you an idea or two if you've been at this homeschool thing for a while! We have resource guides for K-1, 2-3, 4-5 and 6-8.
